

Top Similar Project Ideas

1. Car Wash CMS/Management System

- Creating a customer management system for a local car wash to replace paper records
- Features: subscriber tracking, payment processing, scanning systems, membership tiers

2. Submittity VSCode Extension

- IDE integration for Submittity (automatic code grading tool)
- Features: browsing assignments, submitting solutions, viewing grades
- Improving the CS department's grading workflow

3. Art/Drawing Tool/Randomizer

- Generates random prompts, color palettes, brushes, or constraints
- Helps artists overcome creative blocks
- Could be a game or standalone tool (possibly Krita extension)

4. Habit/Task Tracker with Gamification

- Daily tasks and journaling prompts
- Reward systems (points, digital pets, streaks)
- Motivation through gamification elements
